

I listen to KLOVE FM radio in the Denver Metro area on local 91.1FM. I receive their signal from an FM translator service. This station serves me in my local community. It provides a family safe station to listen to (for my wife and children). It has positive, encouraging stories and music. We do not have to worry about adult-type humor. If KLOVE were displaced by an LPFM station, we would lose this commercial free, positive radio station. KLOVE provides our community with family safe news reports, music, and positive tips for marriage and relationships. Please do not give LPFM stations priority over KLOVE. Thank you.
